## Grains dal polisher

Polishing is one of the important operations in dal milling process. In pulse polishing the dust or loose small particles and irregularities of the surface is removed and the original color is achieved. Polishing gives the shining to the dal thus improving its eye appeal and economics. Avail from us, our range of is use for polishing the grains, dal, rice, etc... The various advantages of these polishing machines are:

## Key features of grains, pulses, dal polisher

- Unique and reliable design
  - The grains, pulses, dals are highly effective as well as nonstop continuous polishing process.
- Easier operation & less maintenance cost.
- Retains proteins and natural shine.
- Compact size
- Continuous production per shift and faster return on investment.
- Compact design, occupies very little space.
- A minimized power consumption by the way of friction loses. Low noise operation, no wastage of product and no pollution hazard.
- Very easy operations, requires no skilled labor

## Constructions of grains, pulses, dal polisher

A JAS enterprise is offering grains, pulses, dal, polishing machine. This machine is simple in construction and easy to operate & maintain. It consist of horizontal lather roller is covered with, surrounded by a screen. Pulses, rice are passes via feeding hopper between screen & leather belts roll. Because of lower rpm of machine grains, pulses etc... were giving glossy shine. The complete unit is mounting on heavy duty c section channel.

## Operation of grains, pulses, dal polisher

A jas enterprise is offering grains pulses, dal polisher. This machine is simple in construction and easy to operate & maintain. It consist of horizontal emery roller is covered with, surrounded by a screen. Pulses, rice, wheat, maize, are passes via feeding hopper between screen & lather roll. Because of lower rpm of machine grains, pulses etc... were giving glossy shine.

### **Application of grains, pulses, dal polisher**

Used for polishing of peas, beans, rice and other seeds. Also for de rooting of malted sorghum gentle polishing action from abrasive interaction of seeds and polisher screen, propelled by soft leather thongs. Robust construction

### **Standard accessories of grains, pulses, dal polisher**

- Motor pulley.
- Adjustable rail for fixing motor.

### **Extra accessories of grains, pulses, dal polisher**

- Suitable totally enclosed fan cooled three phases or single phase sq. Cage motor.
- Suitable miniature circuit with 3 meter cable & 3 pin for single phase electric motors.
- Starters, main switch, ampere meter, capacitor for single phase electric motor.
- Foundation bolts
- V belts
- Magnetic hopper
