## Dough kneader

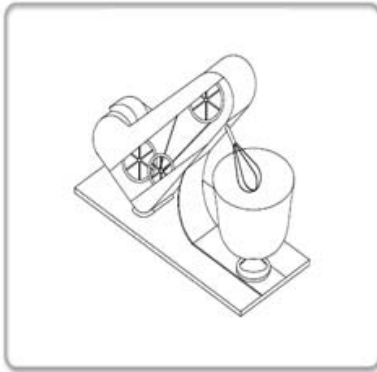

Avail from us dough kneaders, specially designed for heavy duty mixing in the commercial kitchens. The dough kneader is manufactured using stainless steel with rotating arms and bowls. Our dough kneader takes lesser time and gives better water absorption and also folds and stretches the dough for aeration and fermentation. It features a stainless steel bowl, which moves at a slow speed. The dough kneader makes mixing of the dough easier for preparing chapattis, puris, namkeen, etc...

## Construction of Dough Kneader

Our dough kneader's main body is fabricated from mild steel plated of adequate section to give rigidity and robustness. Rotated bowl is made from stainless steel. And dough kneader's arm is made from stainless steel and it's driven by gear box. A specialized stainless steel scraper is provided with the dough kneader. Kneading machine's tank is rotated in clock wise and arm is rotating in anti clock wise thus batch is mix uniformly. Fabricated v belt guard is provided for safety
